\$10

notes

- I have a \$5 flat fee that is added onto the total price of your print order. This covers my time and materials necessary to package and deliver your prints.
 - If your gallery is online, you can "favorite" the photos you'd like prints of by clicking on the heart icon in the upper right hand corner of each photo. After that, you can contact me with the file name (underneath each photo) and size of the prints you'd like.
 - If your photos were delivered on a CD or flash drive, you can contact me with each file name and size of the prints you'd like.
-

notes cont.

The above pricing is for both silk prints and e-surface prints. E-surface prints are what people are most used to, the typical, shiny print. Silk has more texture and is less shiny.

If you would like to personally see samples of the print paper before purchasing prints, let me know!
